Ms. Cooper : Hi, Miki, what are you looking at?

Miki : This is the instructions for our final presentation of OC class. We are going to have the presentation on March 3, Friday.

Ms. Cooper : I see. That's going to be a big project. Have you decided the topic?

Miki : No, not yet, but I have some ideas in my mind. And I'm going to visit my teacher after school tomorrow.

Ms. Cooper : That sounds good. Who's your teacher? Ms. Taylor?

Miki : Actually, not. I took her class in the 1st Term, but I'm taking Mr. Johnson's class in the 2nd Term. Naoto is in her class now.

Ms. Cooper : Oh, I didn't know that. Look here. You have choices of how to do the presentation, by solo or in a group. Which do you want to do?

Miki : I would like to try the presentation by myself.

Ms. Cooper : Good luck with it. I hope you will decide the topic as soon as possible and have enough time to prepare for it.

Miki : Yes, thank you. I will work hard for it!

(1) According to the information above, Miki can _____ .

1. take her presentation sheets directly to the teachers' room
2. finish her preparation without any help from her teacher
3. choose anyone as a presentation partner in her OC class

7 次の英文を読んで、本文の内容と一致するものをあとの 1~8 から 4 つ選び、番号で答えなさい。

There are many kinds of sphinx in the old art of Egypt from long ago. The biggest and most famous is the statue of the Great Sphinx in Giza, near the city of Cairo. A sphinx is an imaginary animal with a lion's body and a human head. No one really knows why the people who lived a long time ago in Egypt made this huge statue. That is why it is such a popular and interesting place to visit.

The Great Sphinx is one of the biggest statues in the world. Its body is 60 meters long and 20 meters tall. It took 100 workers using simple tools about three years to make the statue. It is made out of soft stone. It is amazing to think that the Great Sphinx is about 4600 years old!

The Sphinx is near the Great Pyramids of Giza. It has a human face that looks east toward the Nile River. Today it is very easy for people to visit and look at but this was not always true. For hundreds of years the Great Sphinx was covered in so much desert sand that only its head could be seen. In 1817, a man called Captain Caviglia and 160 other people tried to dig the statue out of the sand, but it was too difficult. At last, in the 1930s, an Egyptian named Selim Hassan finally uncovered the Sphinx's body.

Sadly, the Great Sphinx is not made of strong rock and the desert wind with smoke and dirt from Cairo have changed the Sphinx a lot. Its nose fell off a long time ago and now the body and other parts of the head are slowly disappearing. The Egyptian people are working hard to look after and save this mysterious statue. They hope that its long history will continue.

A 日程 [A1]

1. The Great Sphinx is the only sphinx art in Egypt.
2. A sphinx is not a real creature.
3. A sphinx has a human body.
4. The Great Sphinx was made about 4600 years ago
5. The face of the Sphinx is looking at the Nile.
6. The Sphinx's head was covered in sand.
7. The Great Sphinx was finally uncovered in the 1930s.
8. The nose on the Sphinx's did not fall off.

The tallest waterfall in the world is called Angel Falls and is in Venezuela. Venezuela is a country in South America. Angel Falls is 979m tall. It is as high as three Tokyo Towers on top of each other! The water falls from a mountain called Auyantepui. The name means that the mountain is flat on top like a large table.

Angel Falls is so tall that its water turns into a mist as it drops to the bottom of the fall. In some seasons people more than a kilometer away from the Falls can feel this mist touching them.

The falls are best and strongest between the months of May and November but in December to April it doesn't rain very much in Venezuela so the waterfall becomes very small and it can even disappear.

Angel Falls is named after a man called Jimmie Angel. He was an American pilot who was the first to fly a plane over the falls in 1937. Later he crashed his plane there and he had to walk all the way back down the mountain. This walk took 11 days.

Angel Falls can be found in the Canaima national park. This is a huge area of land looked after by the people and government of Venezuela. It is important to take care of such a beautiful and amazing natural wonder like Angel Falls. Many people can visit and enjoy it.
