次の英文を読んで、本文の内容と一致するものをあとの1～12から4つ選び、番号で答えなさい。

Many people know the video game character and Nintendo mascot, Mario. Mario is the most well-known and one of the most popular game characters ever created. How did he come to be created and by whom?

Mario first appeared as a character in 1981 in the game Donkey Kong which was designed by Shigeru Miyamoto at Nintendo in Kyoto. At first Mario had no name and in some countries was called 'Jumpman' because of the way he would move in the game. He had to jump over many things thrown at him by a giant gorilla. In the next game, Donkey Kong Junior, he was given the name Mario. Mario's simple red and blue design was chosen so that the game player could see him more easily.

In 1983, Mr. Miyamoto designed the game Mario Brothers and it was decided that Mario's job was a plumber - someone who fixes water pipes. In this game Mario was also given a brother, Luigi and they lived together in New York.

In 1985 Shigeru Miyamoto made Super Mario Brothers for the Nintendo Entertainment System (named the Famicom in Japan), which made Mario even more popular. The game also introduced several more famous Nintendo characters such as Princess Peach and Koopa.

Since then Mario and his friends have appeared in more games on all of Nintendo's popular games machines. Well known examples of these games are Super Mario 64, Super Mario Sunshine, Mario Kart and Smash Brothers. The Mario games have sold more than 500 million copies worldwide, meaning they are the best-selling video games ever.

Mario's creator, Mr. Miyamoto still works at Nintendo and has said that Mario is his favorite of all the characters he has made. Indeed, we can be sure of seeing and playing more Mario games in the future. The latest Mario game, Super Mario Odyssey came out in 2017 for the Nintendo Switch and quickly became one of the best-selling Switch games. Mario and his world are here to stay.

1. Many people do not know the character of Mario.
2. The giant gorilla in Donkey Kong was called 'Jumpman'.
3. In Donkey Kong Mario had to throw many things.
4. Mario's clothes colors help the player to see him.
5. It was decided to make Mario's job a game designer.
6. In Japan the Nintendo Entertainment System had a different name.
7. Princess Peach first appeared Super Mario Brothers.
8. Super Mario Moonshine is a famous Mario game.
9. Mario games are not bought by a lot of people.
10. Shigeru Miyamoto left Nintendo.
11. Nintendo does not plan on making any more Mario games.
12. You can play Mario games on the Nintendo Switch.

The Olympics

One of the biggest and most well-known sporting events is the Olympics, held every four years in different countries around the world. This sporting festival first took place in Greece in 776 BC - almost 3000 years ago!

The games were held in the Greek town of Olympia and athletes from all over the country would travel there to join. In those times only men were allowed to join the games. There were also much fewer events than now. Actually, the first Olympics had only one event which was a running race, but over time sports such as boxing, wrestling and horse riding were added.

The purpose of the original games was to show respect to the god Zeus. He was the ruler of all other gods. While the games were happening, all wars or battles in the country were stopped. Athletes who won at the games became heroes and were given gold and the branch of an olive tree.

These days the Olympics have changed a lot. Many countries join and there are a lot more events. One important difference is that now both male and female athletes can join. Although the Tokyo Olympics were cancelled in 2020 due to the coronavirus we can all look forward to next summer when we can once again enjoy athletes from around the world trying to win gold.
