次の英文を読み、各問に答えなさい。

Most people think that the capital of the movie world is Hollywood, in the United States. However, the real movie capital is Mumbai, in India. Before 1995, Mumbai was known as Bombay, so the movie <sup>※</sup>industry there is often called “Bollywood.” Bollywood makes <sup>※</sup>twice as many movies each year as Hollywood — more than 1,000 movies a year.

(A) Bollywood movies { ① from / ② made / ③ different / ④ are / ⑤ very / ⑥ in Hollywood / ⑦ the movies }. For one thing, Bollywood movies are longer than most Hollywood movies. Most Bollywood movies are more than three hours long, and <sup>※</sup>contain singing, dancing, action, adventure, and mystery. Because Bollywood movies contain so many different <sup>※</sup>features, this type of movie is sometimes called a “masala” movie — “masala” is an Indian word for a <sup>※</sup>mixture of spices.

Another big difference between Bollywood and Hollywood movies is how the movies are made. It takes longer to make a movie in Hollywood than in Bollywood. In fact, <sup>※</sup>filming may begin on a Bollywood movie before the <sup>※</sup>script is even finished. The writers can make up the story while they are making the movie. Sometimes they will even write the script by hand instead of taking time to type it.

(B) Bollywood movie actors { ① work on / ② popular / ③ that / ④ may / ⑤ many movies / ⑥ they / ⑦ are / ⑧ so } at the same time. They may even use the same <sup>※</sup>costumes for different movies. Most Bollywood movies follow the same kind of story, so it is not a big problem for actors. For this reason, the cost of Bollywood movies is lower than the cost of Hollywood movies. The <sup>※</sup>average Bollywood movie, with a <sup>※</sup>budget of about two million U.S. dollars, is cheaper than the average budget of nearly 70 million U.S. dollars for a Hollywood movie.

問3 各問の答として最も適切なものを1つずつ選び、番号をマークしなさい。

(a) Which is NOT true about Mumbai?

- ① It is the center of the movie industry in India.
- ② More movies are made there than in Hollywood.
- ③ It is cheaper to make movies there than in Hollywood.
- ④ The new name of the city is Bombay.

(b) Why are Bollywood movies often called “masala” movies?

- ① Because they mix different kinds of features.
- ② Because they have stories about many kinds of spices.
- ③ Because they are longer than Hollywood movies.
- ④ Because they show Indian food culture.

(c) Why are Bollywood movies cheap to make?

- ① Because they are shorter than Hollywood movies.
- ② Because some movies reuse things from other movies.
- ③ Because the movies do not use any costumes.
- ④ Because the scripts are written by hand.

(d) What is the main topic of the passage?

- ① Popular movies and actors in Bollywood.
- ② The difference between Bollywood and Hollywood movies.
- ③ When and where Hollywood movies are made.
- ④ The long history of movie-making in India.

Almost all cultures <sup>※</sup>celebrate the end of one year and the beginning of another in some way. Different cultures celebrate the beginning of a new year in different ways, and at different times on the calendar.

At midnight, these dolls are burned to show the bad things from the last year are gone and the new year can start <sup>※</sup>afresh. Other <sup>※</sup>traditions to keep ( 3 ) bad luck for the new year include throwing things into rivers or the sea, or saying special things on the first day of the new year.

Today we will be talking about the manatee. Manatees are large, gray aquatic mammals that can be found in North American rivers, the Caribbean Sea, but also in South American rivers and coastal areas. Their head and face are wrinkled with whiskers on the snout. The manatee's closest relatives are the elephant and the hyrax (a small, hamster sized mammal). Manatees are believed to have evolved from a plant-eating animal that lived on land. The average adult manatee is about 300 centimeters long and weighs between 350 and 550 kilograms. Manatees are gentle and slow-moving animals. Most of their time is spent eating, resting, and traveling. Manatee eat mostly plants. However, small fish are also eaten by manatees. The Manatee was hunted throughout history, but now is an endangered species and is protected by law.
